The concept of Integration for EU

Migrants actively contribute to the economic, social and cultural development of European societies. Their successful integration into society in the host country is the key to maximising the opportunities of legal migration and making the most of the contributions that immigration can make to EU development. Although Member States are primarily responsible for integration, the EU is supporting national and local policies with policy coordination, exchange of knowledge and financial resources.

AMIF Funds

The Asylum, Migration and Integration Fund (AMIF) was set up for the period 2014-20, with a total of EUR 3.137 billion for the seven years. It will promote the efficient management of migration flows and the implementation, strengthening and development of a common Union approach to asylum and immigration. This Fund will contribute to the achievement of four specific objectives:

- **Asylum:** strengthening and developing the [Common European Asylum System](#) by ensuring that EU legislation in this field is efficiently and uniformly applied;
- **Legal migration and integration:** supporting legal [migration](#) to EU States in line with the labour market needs and promoting the effective [integration](#) of non-EU nationals;
- **Return:** enhancing fair and effective [return](#) strategies, which contribute to combating [irregular migration](#), with an emphasis on sustainability and effectiveness of the return process;
- **Solidarity:** making sure that EU States which are most affected by migration and asylum flows can count on solidarity from other EU States.
